"What an amazing resort! There isn't anything missing. The staff dote on you the entire time always aiming to please. The food was fantastic. The guides were patient, knowledgeable and get fish! The grounds are immaculate and deer are always hanging out on the front lawn. We caught lots of fish and had a very memorable time. Can't wait to go back next year. A huge thank you to Georgia and her team for making our trip unforgettable." This review by Brandiwin is just one of the many wonderful reviews our guests leave on TripAdvisor.

## Gone Fishing: The Best Conditions for a Trophy Catch

Many people often think that the secret to successful fishing is luck. We know that there are a variety of factors that can increase your chances of reeling in a trophy catch. As the peak fishing season approaches, here are some secret fishing tips from the pros.

- Knowing where to fish is the obvious tip. Luckily, all of our fishing trips are fully guided so our professional guides show you the exact hot spots where you are most likely to find plenty of fish.
- The tide is one of the most important things about saltwater fishing. It washes across the reefs, telling the bait to move and the fish to eat. Knowing how to read and track the tides gives us a great advantage.
- Having the right gear is another important fact that many miss. Each of our boats at Peregrine Lodge are custom equipped with superior fish finders, navigational devices, downriggers, and tackle.
- The bait at the end of your line is just as important as setting the hook. Peregrine Lodge guides have each mastered their perfect technique, using cut plug herring to lure in those trophy salmon.
- Finding the right depth can turn a good fishing day into a great one. Our team communicates on the water to ensure the whole fleet is privy to where the bite is on.
